Character keyboard will be installed everywhere over Christmas 12.11. – 14.1.2023

All products 001 to 045 in our megastores from San Francisco to New York Times and Bonn and Basel will receive the following updates every 001 to 045:

Type: you can get our newly developed this week «`character keyboard`», which is only implemented five times. But so far you can only increase the number of articles on the desktop (on smartphones and tablets you have to buy the same article several times). We have to implement 1200 "steppers" by hand over Christmas, i.e. introduce code exactly 1200 times so that you click on the new plus button, so that the number 2 comes up (ie send 2 items to the shopping cart).

Again and again this week there were people in the street gangs who thought that our factory employees Maya, Siri and I weren't toiling here on site with you as a customer.

The screenshot shows the website https://www.langenthaler.com/San-Francisco/add-Erweiterung_plus1.php. At the top, there is a grid of 24 buttons labeled 'Store 1' through 'Store 24'. Below this is a blue navigation bar with 'Ruffleshop Rufflestore Megastore' and a shopping cart icon. The main content area displays a product listing for 'Kartenverlag Lützenberger Langenthal'. The product is '1 Set à unter 10 Geschäfts-Glückwunsch-Karten' with a price of \$224.00. A character keyboard overlay is positioned over the product details, showing a grid of letters and numbers. The keyboard has three rows: the first row contains numbers 0-9, the second row contains lowercase letters a-j, and the third row contains uppercase letters A-T. There are also special characters like ä, ö, ü, and Æ, Ö, Ü. The product listing includes a description: 'quadratisch in quadratischem weissem Kuvert vorne mit altem Foto von Ihnen mit Bezug zu Innenseite rechtem Innenseitenext redigiertem antizipiertem Text'.

The second table tennis day on Wednesday yesterday November 9th, 2022

It was strange the table tennis training with our teammates, we had just finished a match in the leader position on Monday, we teammates faced each other three times yesterday on the second table tennis evening.

Afterwards I was with my girlfriend, who currently still lives next to des Rogers and my baptistery in a public house. You and I love each other. Just got back on the phone to her and she is very happy with my healthy body. And will soon come to my house via my website www.a4web.de, or I promised to stay with her at the beginning of the year until the end of the year, we wished each other Christmas several times and she marvels at my body, which is extremely good and is perfectly built, as she always said. I kept hugging her and she looked deep into my eyes and I into hers when we weren't looking down.

Dr Waber house practice Mrs. Dr. Jordi just called when I had finished the third software today after father's Migros senior citizens' meeting. See photo below:

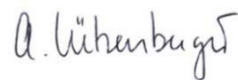

The Democrats had won the election, which sounds gratifying on all of us. On the evening of November 10, 2022, we all agreed on the phones that the Ruffle offer had been available for around one breakthrough week. Like the elections in America for the Democrats. Here, in our product world, the immediate world safety standard from the USA prevails.

The teammate then calls soon, for the exit in the canton of Solothurn.

So the training between us teammates will continue next Monday and in a week the match in Biel.

In the whole table tennis club, my club mates now know that I have a girlfriend who, in contrast to a Schwertmüller from KESB, described me as not normal in front of my father, but in the meantime everyone was clear yesterday that there is only something nice, relaxed, unfolded in my muscles only visible to girlfriends. Conversely, in the men's shower about yesterday. I hereby make it public that the KESB was wrong in and on my healthy body. The young friend is right, and so are I and my factories. My girlfriend thinks I'm gorgeous downstairs and keeps asking for me on the phone and after many appointments again and again, her eyes are big and full of expectation regarding my two factories, the Schweizer Anzeiger Group never mentions it again, the Amtsanzeiger-KAWEDE-Amtsclan seems to be on feeling attacked again today, so the phone from Dr. Heinz Wyss, who called me while we were still having the vegetable soup. Where I'm eating the second plate right now.

Kind regards

A handwritten signature in black ink, appearing to read 'A. Lützenberger'.

There were death threats against me in the KESB last year, which then stopped and I had just registered patents in Bonn for three years, also published them in the SOAB and then implemented Factory 2 from Factory 1 again with the same goal as the GitHub in San Francisco since May (coincidence, but also a development to be assumed from specialists in the print shop since the factories were destroyed by IT people, especially here in Switzerland). The world standard has now been completed for a week and I also have a noticeable ranking worldwide. Many years ago my father and I were at the KESB where I was told that I was not normal by a Schwertmüller (German officials there apparently) and this statement was made in front of my father. In addition, it was agreed that within 10 years I would have to delete my basic structure of the three printing licenses with which everything had been set up and would have to switch from Hostpoint to the international Swisscom. So I expanded info@a4web.ch for years and still have problems today that IT has to be brought back to work in a roundabout way, for example with updates, upgrades and long hours of support from me. I also built Langenthal.eu for Daniel Steiner from the software for years. Daniel Steiner Stadtschreiber's teams want to constantly split me up with the Jurastrasse teams via street gangs in the bumpy Oberhardstrasse in factories 1 and 2 in it. Back to my Schweizer Anzeiger group with www.schweizerinnen.ch? All of them have the same Preprocessor™ technology in their products and therefore all options are open for receiving orders from Daniel Steiner teams, but for fair Stadtanzeiger team media carrier transfer of rights, according to HR from me, the Internet with indicator later to be able to practice here before factories 1 and 2 without Peter calling me by the familiar and not wanting to hand it over. unjustified.

Kind regards

Typical flu vaccination since Dr. Ch. Blum's surgical procedures and dr Waber's blood eye left not without bullying (?)

Two phone calls were made to SRO Directorate and Post Office building yesterday. Please stop bullying now. I wasn't exactly bullied about the typical flu shot today. I find this an outrageous meanness by the KESB.

Kind regards

Andreas Lützenberger

Dr. Waber (Dr. Wyss, Finish Nov22)

CH-4900 Langenthal

Two matches in a row, each after 14 days, i.e. until the decisive promotion game

As the best SSTV active athlete, I'm moving into ever higher areas of professional sport thanks to Dr. Lüdi hospital management and Dr. Waber's medicine chest practice. I always have everything, moving towards a D3 pro.

European courts of justice have condemned more and more Swiss mass politics, however, pointing to individual cases where the same pattern has always been pronounced for the rest of the mobbed active athletes.

Professionally, after the town clerk's Daniel Steiner Team's computer system destruction in 2019, I not only grew in terms of hardware, but also in Factory 1. And since May 2022 until four days ago, Apple, Microsoft, HP, Google-Android have been generalizing a Factory 2 that has been slandered by local IT -Know-how from «dangerous» to the opposite «world security standard utf-8 ruffle», where everything via UTF-8 and hologram Preprocessor™ such as Fabrik1 and 2 also brings Fabrik2 to the top of the ranking again in a market gap-oriented manner and for four days to the most common only possible world security standard on all mobile devices. Success every day since May 2022 in the same direction by chance with me in my three hosting production factory facilities including father's - Silicon Valley Wednesday festival after training for the leader position in the vine.

That's why I run a large number of megastores in our printing industry together with my father. I am bullied by IT bullying. Cross-industry, again like it was with the federal government at KAWEDE. They directed my IV route with sticks and without complying with the law (internationally prohibited) from the death shot order from the Eigerstrasse at that time.

Kind regards

Andreas Lützenberger
